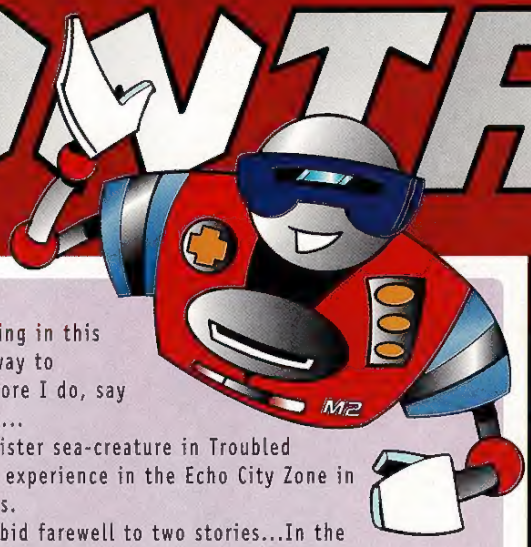
YOUR GUIDE TO THE WORLD OF SONIC THE COMIC (STC) & SEGA. PRESENTED BY YOUR HOST, MEGADROID.

CONTROL ZONE



Hey, Boomers!

My batteries are overheating in this weather, so I'm planning to get away to recharge my energy levels, but before I do, say hello to two brand new *STC* stories...

Knuckles encounters a sinister sea-creature in Troubled Waters, whilst Tails has a baffling experience in the Echo City Zone in the complete story, Changing Times.

Hankies to the ready and bid farewell to two stories...In the conclusion to Running Wild, Sonic has absorbed so much Emerald Power he's no longer in control of his actions - so prepare to witness one beserk Super Sonic! Also, trouble abounds when Brutus battles with Robotnik, but who'll win the day? Find out in the final part of Sonic's Worlds' Revolution.

Do you feel lucky? If so, you could be right on target to win a Casio mini TV in another classic compo, courtesy of the chaps and chapesses at Chewits!

The Review Zone checks out Euro '96 and World Cup Golf on the Saturn, while the Q Zone quashes more quibbles - this time it's the turn of Vectorman on the Mega Drive.

Finally, your artistic offerings in the Graphic Zone have really put me in the mood for getting away. A fortnight free from the-humes-who-think-they're-in-charge (now that the hot weather's here they're all wearing shorts - not a pretty sight, let me tell you!). But don't worry, Boomers, I'll be back in time for issue 83. Wish me bon voyage!

GAME TYPE: SPORT

PUBLISHER: US GOLD
PRICE: £44.99
RELEASE DATE: OUT NOW
AGE SUITABILITY: ALL

Oh no, not another golf game I hear you cry? Well, don't moan too soon, because US Gold's **World Cup Golf** is actually rather good.

Contrary to what the title suggests, **World Cup Golf** not only allows you to play in the World Cup, but it also includes a further six tournaments in which you may take part. These other competitions are aimed at the amateur player and are a great way of finding your feet before entering the big one!

The World Cup is for professionals only; the main differences being that you start from a more difficult area of the field and have to select your own set of 13 golf clubs. Selecting your shot is very comprehensive and fairly easy to learn, once you've had a bit of practice; everything from the wind, and your stance, to adding back and top spin is included.

The game features some excellent graphics for a golf game, though, as you would expect, there is a lot of green! Sound is nothing spectacular, just the crowd 'ooh-ing and aah-ing', hitting the ball, and the birds twittering!

Overall, **World Cup Golf** is great if you like this type of sports game. It's realistic, and especially great fun if played with friends.

FINAL COUNTDOWN

Golf addicts will find this a hard hitting game!

Britain has gone soccer crazy with the European Championships, and video game fans will go even crazier with Sega's official **Euro '96** game for the Saturn.

It's a corker with everything featured in the real-life tournament. You'll find all 16 teams competing in their group, with the actual venues and players, and it even has statistics on every single player and country! All this allows you to look and choose the best line-up and formation to beat the opposition. The game also has excellent real-time match commentary from Barry Davies, with more than 30,000 words of match analysis. So this game will tell you if you're not playing too well.

Over 1,000 moves are included, such as diving headers, back heels, and chesting down and you can even have four people playing at the same time, if you have a multi-tap adaptor.

Euro '96 is without doubt the best football game on the Saturn, easily beating the competition. It's expensive, but if you like football, it's worth saving up for!

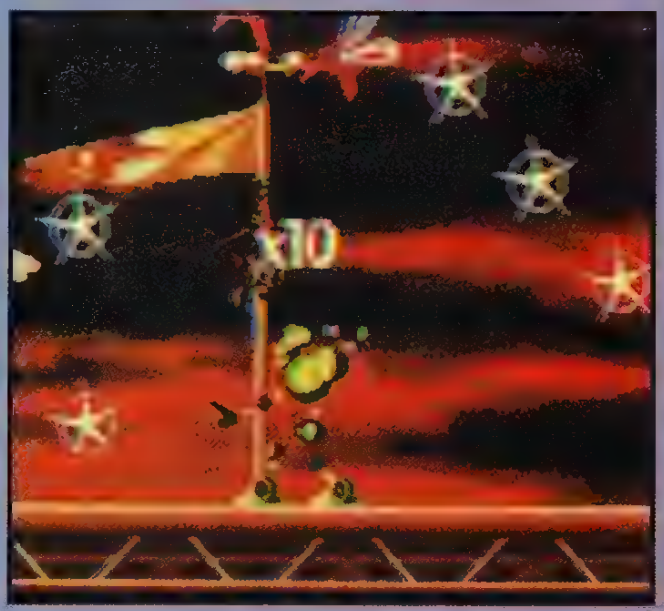
VECTORMAN

MD MEGA DRIVE

Compiled by Chris Jones

Set squares and rulers to the ready, Boomers, because one of the most original games of 1995, **Vectorman**, is getting the full cheatment! These tips could help *Vectorman* save the earth from toxic disaster, and mash up those baddies!

Important! These codes may take a few attempts to work, but you'll soon get the knack if you enter them as instructed ...



CHEATS

TIME WARP

At the Sega logo screen, move *Vectorman* underneath the logo and shoot it 24 times. Then, jump and hit *Vectorman's* head on the logo 12 times. The words "Get Ready" will appear and the letters S, E, G, A, will begin falling. Catch 80 letters to warp to the fifth day, or catch 110 and warp to day ten.

TAXI MODE

While playing, pause the game and press **C, A, Left, left, A, C, A, B.** You'll turn into a cursor arrow and you can go anywhere you like in the level. You can't actually hurt anything in this mode, so you won't be able to defeat the bosses. Enter the code again to return to normal.

SEE HITBOX

To see *Vectorman's* hitbox, pause, and type in **A, B, A, C, A, B.**

GIVE PEACE A CHANCE

Zapping the bad guys is a lot of fun, but for a huge bonus, complete a level without shooting anything. You can also get a photon bonus if you finish the level without using any photons.

PRACTICE MODE

At the Sega screen, press any button. This will let you

practice controlling *Vectorman*. Also, if you stand on the right side of the screen and shoot up, you'll hit a TV. Break the TV and you'll be surrounded with little stars.

SECRET CHEAT MENU

This works for some and not others, so good luck! On the opening screen, go to the options and enter **ABBA down ABBA** and you'll get to a secret cheat menu. You can now start at any stage of the game with maximum health, lives, and with any weapon.

SURVIVAL GUIDE

Some of these tips may seem obvious, but it's amazing how many folk overlook them!

- **Max Health Power-ups** are the most valuable items in the game. They increase Vectorman's supply of health points, allowing our hero to take more punishment.
- Always be aware of your surroundings before **morphing.** Remember, when *Vectorman* is morphing, he is invincible.
- Shooting downward in the air slows *Vectorman's* [illegible] sections may be found through **secret doors.** Check dodgy-looking solid walls to find them.
- Hitting the jump button while in a jump, produces a **boot blast** which can destroy enemy orbots.
- [illegible] **crouch** [illegible] your head.
- Enemies, **Mage** and **Doorman** are equipped with super-resistant face masks that can't be damaged. However, both these orbots have a [illegible]
- [illegible] **Health** [illegible]
- Always pick up **multipliers** (e.g. 2X, 3X, 5X or [illegible] multiply your lives and health.
- Finally, going to the **bonus levels** gives you extra points and restore you to full health for the next level.

WHAT?

Dear M-Droid,

The only thing wrong with your comic is that the letters and answers are too short. It's also about time something was done about Knuckles' skin - at least dye it! Lastly, do you remember when Forrest Gump said, "Life is like a box of Mobian chocolates"? Anyway, it's goodbye from me, and it's goodbye from Mobian Challenge.
Ewen Hosie, Dunoon, Scotland.

I could write you a long detailed answer, Ewan, but your letter has left me speechless!

WHY?

Dear Megadroid,

Why do you never get a day off from *STC*? You seem to slave around the office all the time answering letters.
Marko Saric, West London.
Sonic & Knuckles Camera Winner.

You have a point, Marko, I'm fed up being treated like a mega dreg and have decided to take your advice. See what I get up to in STC's next issue when all will be revealed!

WHEN?

Dear Megadroid,

Please could you tell me if there will be any more Sonic the Hedgehog games in the future?
Gemma Goodger, Torquay, Devon.
MD owner.
Sonic & Knuckles Camera Winner.

You bet, Gemma. Not only does Sonic strike back with Sonic 3D on the Mega Drive but he also makes his debut appearance on the Saturn with Sonic X-Treme. Watch out for future STC news and reviews!
